

C TADM70 74

SAP Certified Technology Associate - OS/DB Migration for SAP NetWeaver 7.4

Product Group	:	
Solution	:	SAP NetWeaver
Sub-solution	:	NetWeaver: Web AS ABAP
Component	:	
Delivery Methods	:	Certification
Level	:	Associate
Exam	:	40 questions
Sample Questions	:	PDF Link
Cut Score	:	59%
Duration	:	90 mins
Languages	:	English

Topic Areas

Please see below the list of topics that will be covered within this certification and the courses that cover them:

Advanced Migration Techniques > 12%

Identify the Time critical steps in an R3LOAD / JLOAD based system copy. Describe the Methods/strategies to save time during system copy.

TADM70 (NW AS 7.40)

---- OR ----

ADM545 (NW 7.3)

SAP Migration Tools > 12%

Recognize the tools that are required to perform a SAP OS/DB migration and describe their functions.

TADM70 (NW AS 7.40)

---- OR ----

ADM545 (NW AS 7.40)

Control and Data File Structure for System Copies > 12%

Explain the purpose, contents, and structure of the R3LOAD and JLOAD control and data files.

TADM70 (NW AS 7.40)

---- OR ----

ADM545 (NW AS 7.40)

Special System Copy Procedures 8% - 12%

Describe the scope of special system copy procedures. Describe the NZDT/MDS system copy method, and distinguish between the classic migration to Sap HAN and the database Migration option for SUM

TADM70 (NW AS 7.40)

---- OR ----

ADM545 (NW AS 7.40)

The System Migration Process 8% - 12%

Describe the migration procedure and explain the steps required to migrate an ABAP and Java based system.

TADM70 (NW AS 7.40)

---- OR ----

ADM545 (NW AS 7.40)

Export and Import of System Copies 8% - 12%

Evaluate the database-specific and unspecific options for performing SAP homogeneous or heterogeneous system copies (OS/DB Migrations).

TADM70 (NW AS 7.40)

----- OR -----

ADM545 (NW AS 7.40)

Technical Background and Troubleshooting 8% - 12%

Describe how Data Classes are used to map tables to database storage units and how Data Classes are handled by R3LDCTL and R3LOAD. Explain the purpose of table DBDIFF, and describe how the R3LOAD/JLOAD data access works. Distinguish between the R3SZCHK behavior if the target database type is the same or different than the source database type.

TADM70 (NW AS 7.40)

----- OR -----

ADM545 (NW AS 7.40)

SAP System Migration < 8%

Clarify what is a homogeneous or heterogeneous system copy, which tools are available, what is the Going Live OS/DB Migration Check Service, and from where to get information about the migration procedure.

TADM70 (NW AS 7.40)

----- OR -----

ADM545 (NW AS 7.40)
