

SCM210

Core Interface (CIF)

Product Group	:	
Solution	:	SAP SCM
Sub-solution	:	
Component	:	
Delivery Methods	:	Certification
Level	:	Details, Configuration & Transaction
Exam	:	80 questions
Sample Questions	:	PDF Link
Cut Score	:	
Duration	:	2 days
Languages	:	English

Prerequisites

Essential

- [SAPSCM](#) SAP Supply Chain Management Solution Overview

Course based on software release

- SAP ERP Central Component 6.0 (ECC), Enhancement package 6
- SAP SCM 7.0, Enhancement package 2

Content

- Architecture of the integration of the system SAP ECC with the system SAP SCM: logical systems, target systems, queued RFC, RFC-destinations, business system group
- Generation of integration models for the core interface (selection of master and transaction data which should be transferred)
- Activation of integration models (transfer of the selected data)
- Initial and change transfer of fundamental master data from the SAP ECC (e.g. plant, distribution center, material)
- Real-time transfer of transaction data (stocks, orders) from SAP ECC as well as retransfer of transaction data like planning results from SAP SCM to SAP ECC
- Reports for routine operation
- Monitoring and treatment of errors during the transmission (CIF cockpit, SCM queue manager, qRFC monitor, application log, and so on)
